CSI Upgrade/Support Refusal Form

CSI software license is required to be re-registered annually. License renewal message pops-up 4 weeks in advance to give users sufficient time to contact CSI. Users may renew the license by phone, email or internet. There is no charge for software renewal, however in order to keep the software up to date and be able to give proper support, users are required to update the software at least once every 3 years which is subject to upgrade fee. The license WILL not be re-registered if the software version is out of date.

If you are not interested in keeping your software up to date and require no support, please sign the form below and return to CSI ASAP. Please note, by signing the following form you are agreeing that we may refuse your request for any support and therefore losing your license.

For additional information, please visit our website <http://www.computersystemsint.com/support.aspx>
